

CYBER WHISPER

BECOME A  
**CERTIFIED  
FULL-STACK  
SOC ANALYST**

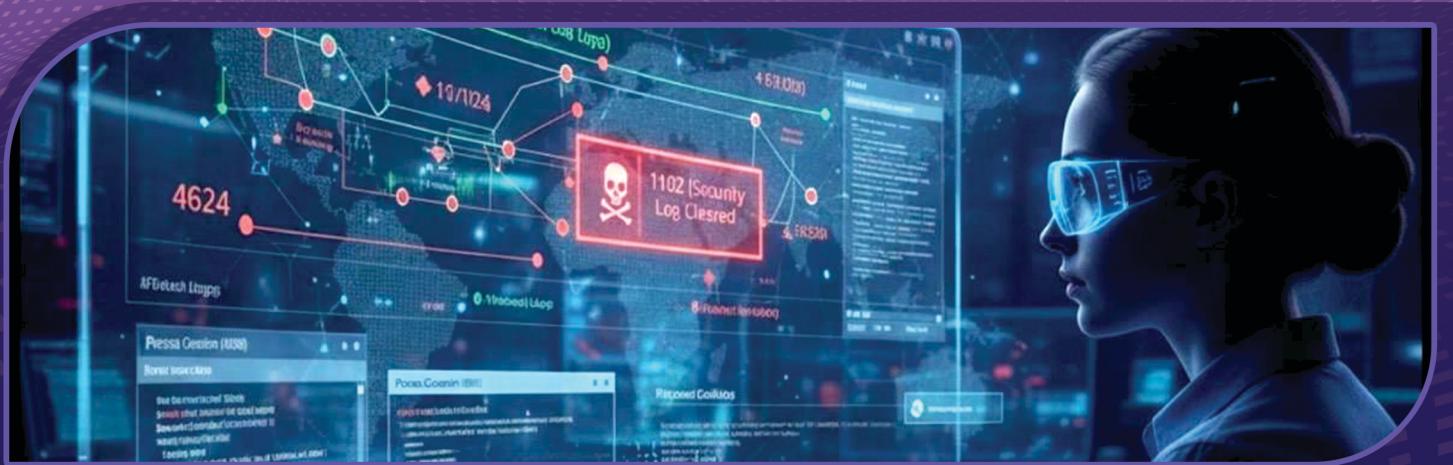

LEARN FROM THE EXPERTS

CYBER WHISPER

# FULL-STACK SOC ANALYST CERTIFICATION

**Jumpstart your cybersecurity career  
with our 30-day boot camp. 2 Hrs Live Daily**

Learn from instructors who've led SOC teams at Deloitte, PwC, EY & KPMG, secured Silicon-Valley product companies, and protected critical missions for DRDO & the Indian Air Force.

Join our live Q&A every Friday with experienced mentors to get your questions answered!

We provide a guided career roadmap to help you achieve your cybersecurity career goals.

Get placement assistance with mock interviews, resume building, & kick-start your dream cybersecurity career

We provide lifetime alumni forum & quarterly refreshers

CYBER WHISPER

# Training today's defenders of the digital world.

# CYBER WHISPER

## High-End Learning Labs

CYBER WHISPER

# BEGINNER SECURITY ANALYST (L0)

**Week  
1**

## Cyber-Security Core

- Security triad, risk & compliance
- Threat actors & vectors
- Case-study: dissecting a breach

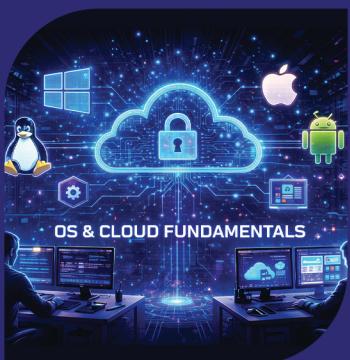

**Week  
2**

## Networking for Defenders

- Packets, protocols & OSI stack
- Firewall + IDS intro
- Lab: capture-the-packet challenge

**Week  
3**

## OS & Cloud Fundamentals

- Windows Event IDs & Sysmon
- Linux auditd & log locations
- Cloud threats workshop

**Week  
4**

## SIEM & SOC Ops

- Log collection → dashboards
- Alert triage drills
- Capstone mini-SOC exercise

CYBER WHISPER

# BEGINNER SECURITY ANALYST (L0)

Think like an attacker.  
Defend like a pro.

Join our Cyber Security Course today

₹ 15 000

Enroll Now

# INTERMEDIATE SECURITY ANALYST (L1)

**Week  
1**

## Cyber-SIEM Foundations & Deployment

- SIEM install (on-prem / cloud)
- Parser pipeline & index management
- Lab: first log flow & health checks

**Week  
2**

## Log On-Boarding & Parsing

- Windows, Linux & firewall sources
- Custom Rule creation
- Dashboards & alert channels setup

**Week  
3**

## Detection Engineering & Hunting

- KQL / Sigma rule creation & testing
- Baseline vs anomaly hunt workflow
- Lab: detect credential-dumping activity

**Week  
4**

## Purple-Team & Incident Response

- Blue-vs-Red attack simulation
- IR playbook & timeline reporting
- Executive debrief & improvement plan

CYBER WHISPER

# INTERMEDIATE SECURITY ANALYST (L1)

**Red breaks in. Blue locks down.**

**Purple makes security smarter.**

Learn SIEM, detection engineering & Purple Team ops.

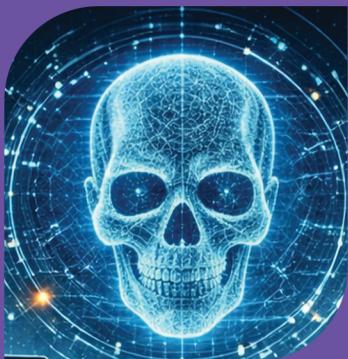

₹ 25 000

**Enroll Now**

# ADVANCED SECURITY ANALYST (L2-L3)

**Week  
1**

## Advanced Detection & Hunting

- Hypothesis-driven hunt framework
- F-N overlap & enrichment pipelines
- Lab: hunt Cobalt Strike beacons

**Week  
2**

## Threat Intel & Automation

- CTI sources, STIX/TAXII ingest
- SOAR playbooks for auto-enrichment
- Lab: auto-block malicious IPs

**Week  
3**

## Breach Simulation & Purple Team

- Red-team toolkit & attack path
- Blue-team detection coverage map
- Live purple-team exercise

**Week  
4**

## Incident Response & Reporting

- End-to-end triage & timeline build
- Breach containment & recovery plan
- Executive report & wash-up

CYBER WHISPER

**ADVANCED SECURITY ANALYST (L2-L3)**

**Master SOC operations.  
Hunt threats proactively.**

**Simulate real-world breaches.**

**₹ 35 000**

**Enroll Now**

CYBER WHISPER

# SOC + Cloud Security Track (L1-L3)

## SOC Analyst Mastery Program

### L1 + L2 + L3 + Cloud Security Analyst | 6 Months

Hands-on · Job-Oriented · Industry Aligned  
Internship Letter Included

A complete hands-on journey from SOC foundations to advanced cloud investigations across AWS, Azure & GCP.

### Program Overview

A 6-month intensive SOC & Cloud Security program designed to make you job-ready through real investigations, live attack simulations, and cloud log analysis.

### Core Coverage:

SIEM · Network · Malware ·  
Incident Response · CTI & MITRE ·  
Cloud Security

CYBER WHISPER

# WHAT YOU'LL LEARN

SOC operations & alert triage

Network & PCAP investigations

Malware analysis (static & dynamic)

CTI & MITRE ATT&CK mapping

Incident response & DFIR basics

Vulnerability assessment fundamentals

Professional reports & interview prep

Cloud IAM threats & misconfiguration checks

## CLOUD SECURITY SKILLS

Cloud Security Investigations

AWS · Azure · GCP

- AWS CloudTrail & GuardDuty logs
- Azure Entra ID & Activity logs
- GCP Audit log investigations
- IAM abuse detection & validation

CYBER WHISPER

# Advanced Capabilities & Labs

## Intelligent Investigations

ELK enrichment & correlation

## Cyber Range

Simulated attack scenarios

## Malware Sandbox

Malware analysis labs

## SIEM Platforms

ELK, Splunk, Wazuh

## CTF Challenges

Capture-the-Flag events

## CSPM & Automation

Cloud security & workflows

## Intelligent Investigations

Proprietary framework + ELK enrichment & correlation

## Cyber Range

Real-world attacks & blue-team simulations

## SIEM Platforms

ELK · Splunk · Wazuh (cross-platform workflows)

## Malware Sandbox

Detonation & behavioral analysis labs

## CSPM

Cloud posture management & misconfiguration detection

## CTFs

SOC-focused Capture-the-Flag challenges

## Automation

Workflow automation to reduce SOC fatigue

CYBER WHISPER

## Program Snapshot

Duration

6 Months

Levels

SOC L1 · L2 · L3 · Cloud Analyst

Mode

Hands-on labs + case studies

Cloud Coverage

AWS · Azure · GCP

Deliverables

Portfolio, Investigation Reports

Bonus

Internship Letter

CYBER WHISPER

## 6-Month Learning Roadmap

**Alert → Investigation → Evidence → Report → Remediation**

### Month 1 - SOC L1 (Foundation)

Log sources · SIEM alerts · Network basics · Reporting

### Months 2-3 - SOC L2 (Intermediate)

SIEM correlation · Threat hunting · Windows/Linux deep logs · EDR basics

### Months 4-5 - SOC L3 (Advanced)

Incident leadership · DFIR timelines · Attacker tradecraft · Purple teaming

### Month 6 - Cloud Security Analyst

AWS/Azure/GCP investigations · IAM abuse

Misconfiguration exposure · Capstone

## What You Graduate With

- ✓ Internship Letter
- ✓ Real-World Capstone Portfolio
- ✓ Investigation Reports
- ✓ Job-Ready SOC & Cloud Skills

**Start your SOC  
& Cloud Security career today**
